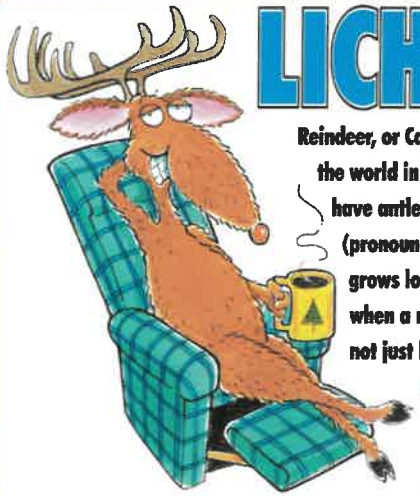
GERM WARFARE.

The folks who work in your school restaurant wash their hands all the time! And YOU should wash your hands anytime you think they might be dirty. It's one of the easiest ways to fight germs and stay healthy!

EAT BETTER. PLAY HARDER. LIVE HEALTHIER. LEARN EASIER.
WELLNESS IS A WAY OF LIFE!

LICHEN LIFE



Reindeer, or Caribou, are the only deer species in the world in which both the males and females have antlers. Reindeer eat a lot of lichen (pronounced "like-en"), a moss-like plant that grows low to the ground in Arctic regions. So when a reindeer's munching some moss, he's not just lovin' life -- he's "lichen" it, too!

ANIMAL APPETITES

Only an Illusion

No matter how it might look, the top part of this tree is not floating in mid-air! Two artists wrapped the trunk in plastic and spray painted the plastic to match the background and create this cool illusion! You can learn more by searching on-line for "floating tree illusion."
