

Round Valley School District

My name is Ramsey Finch, and I am seeking the opportunity to serve on the Round Valley School Board because I care deeply about our schools and the future of our community. I grew up attending these schools and have lived and worked in this community for many years, spending much of my career serving its families as a healthcare professional. I believe it is important to step forward, get involved, and give back to the community that helped shape who I am.

One of the main reasons I am interested in serving on the Board is that I want to be part of the process. It is easy to stand on the outside and question why certain decisions are made. I would rather take the time to understand the challenges our schools face, listen to the people involved, ask questions, and help find solutions. I will come willing to listen, learn, do the work, and make decisions based on what I believe is best for our students and schools.

Education has always been important in my family. My mother was a teacher for more than 30 years, as was my grandmother, and my father served on the School Board. I grew up seeing firsthand the commitment educators make to their students and the important role our schools play in our community.

I hold a Master of Science degree, and my career in healthcare has taught me responsibility, teamwork, communication, and how to make difficult decisions. I also volunteer on the Medical Staff Board at White Mountain Regional Medical Center, which has given me additional experience working collaboratively, considering different perspectives, and making decisions that affect both an organization and the community it serves. Good decisions require looking at the facts and being willing to have difficult conversations. I would bring that same approach to decisions involving our students, staff, families, programs, and resources.

I am proud of where I come from, and I want our kids to feel that same pride. I would be honored to give back to the schools and community that helped shape me and to help ensure the next generation has every opportunity to learn, grow, and succeed.

Thank you for considering me for the opportunity to serve.

Ramsey Finch
