## Press Release

This morning Apache County's ballot on demand printers did not work as planned. The County worked quickly to identify a fix to the problem. By 9:00 a.m., the fix was identified, and the County immediately began deploying technicians to administer it. Pre-printed ballots were available at all polling locations and some voters utilized the County's accessible voting devices, so that voting could continue during the period the County worked to resolve the printer issue. All polling places have remained open and voting has continued all day for registered voters who want to cast their ballots in Apache County.
