

Lake-Lehman School District Wellness Committee March 2026 with adoption May 2026

Background Federal regulation requires the review and revision of school districts' wellness policy (246) every three years. Our policy was last reviewed in 2021. Our process included policy review and the completion of the Triennial Assessment. PDE provides a Triennial Assessment to meet the requirements in federal regulations and prepare for the Administrative Review by the Pennsylvania Department of Education (PDE), Division of Food and Nutrition. It was noted that official adoption and public review had not taken place. Calendars of review and yearly meetings will be in place to better prepare and have the necessary communication in place for compliance.

The Assessment guided the Wellness Committee, the review, and public communication regarding the review. The Triennial Assessment and the wellness policy will be submitted to PDE during the Administrative Review (AR) of the School Nutrition Program. During the AR, PDE checks to make sure the assessment was completed within the prior three years, the wellness policy includes the minimum elements per federal regulation, and required stakeholders were included in the review process. Process The committee met October/January 2025 to review the policy and complete the assessment. Electronic communication (Zoom- January and March meeting) and input was also part of the process. Committee members and input were solicited via public board meetings, PTO meetings, and administrative meetings. Committee members were encouraged to solicit input from stakeholders throughout the process. The process concluded in March 2026 with updated policy and review to be presented at the Board meeting of May 2026. The Triennial Assessment is linked to this document below and was verified by the Superintendent, Program Coordinator, School Nurse, Metz Representative, Student/Sean, Parent/Holly- names listed below. Communication and feedback for the wellness committee is the responsibility of Lori Bednarek, Program Coordinator.

Report on the progress made in attaining the goals of the wellness policy (REQUIRED):

We will continue to implement and provide nutrition education to our students specifically through presentations and messaging throughout the school year.

Transition planning will have to encompass plans for assessment and wellness committee review and meetings. Cross training and educational objectives regarding wellness will be shared and a calendar of review will be implemented.
