Superintendent's Report

Mr. Budd asked Mrs. Sara Bishel to discuss the upcoming French Club trip. Mrs. Bishel stated the French Club will be traveling to Quebec and Montreal, Canada from May 24, 2026 through May 27, 2026. Mrs. Carri Madison will also be attending as a chaperone. She stated the students will get to experience so much history, including seeing several cathedrals, enjoy the cuisine, and use the metro system all while using the French they have learned. Mrs. Bishel stated this is a great opportunity for the students.

Due to meeting length, Mr. Budd offered Mrs. Kari Stake to present the proposed 2026–2027 cafeteria budget early so she could vacate the meeting if she wished. Mrs. Stake stated the budget is based on 179 breakfast and lunch service days and a projected enrollment of 878 students. The district will continue participation in the Community Eligibility Provision, providing free meals to all students. A slight decrease in revenue is anticipated due to lower enrollment, impacting à la carte and adult sales. Federal reimbursements remain a primary revenue source. Projected increases include 5% for food costs, 7% for paper and cleaning supplies, and 2.7% for administrative fees. Expenses also reflect staffing updates, including the addition of a part-time position and inclusion of summer program wages. The proposed budget reflects a projected profit of \$88,804.49.

Mr. Budd provided an overview of the preliminary budget. He reviewed the district's preliminary budget by function codes and object codes. Mr. Budd read through a summary of these codes including regular education, special education, vocational and other instructional programs. As well as multiple support services, transportation services, maintenance, student activities, community and debt services, fund transfers and budgetary reserves. Mr. Budd stated the anticipated operating budget for the 2026-2027 school year is \$21,990,967.00 allocating \$200,000.00 for unforeseen expenses. The budget shows a \$1,262,336.00 deficit. Mr. Budd explained the district's budget conservatively and this would be a worst case scenario.

Mr. Budd reviewed the IU9 special education support services agreement for the upcoming 2026-2027 school year. The Achievement Center emotional support placement was outlined at \$300 per day for an initial 45-day placement. Out-of-district emotional support services were estimated at \$39,500 per student, not including transportation or additional mainstreaming-related costs. Additional service rates include hearing and vision support at \$5,575 annually (one hour per week), psychological services at \$25,000 (one day per week), behavior analyst services at \$90 per hour, occupational therapy at \$64 per hour, and physical therapy at \$80 per hour. Autism support services and related positions were also noted (funded through IDEA) with a total cost of \$21,665.00.

Mr. Budd reviewed the UPMC Cole School Physicians proposal. Dr. Tronetti and his staff were commended for their ongoing support in providing student physical examinations and athletic medical coverage. Mr. Budd stated physicals are currently being scheduled, including spring dates and summer make-up opportunities, to ensure student eligibility for athletic participation. The fee structure was outlined as \$25 per physical, \$130 per home event, and \$230 per away event. Mr. Budd noted that Dr. Tronetti consistently supports the district's

students by donations for equipment, apparel, and wellness opportunities.

Mr. Budd reviewed the district's credit recovery program, noting continued use of Penn Foster and rising costs, now \$400 per course, which has reduced participation. An alternative option through Keystone School Online was presented at a lower cost. The proposed structure would follow prior summer school practices, allowing eligible students to complete a semester course, with final grades averaged accordingly, while students below 60% would complete a full-year course. Mr. Budd is seeking potential cost reductions from Penn Foster. If unsuccessful, a recommendation to transition to Keystone School Online, with Board reimbursement contingent upon successful completion, will be brought forward for approval at the next meeting.

Motion: Mr. Stake; Second: Mrs. Babcock. The motion was carried unanimously.

Finance

Mr. Moate stated our current agreement with JVB, regarding interest rates, is expiring on May 15th. Currently it is at 4% and is going to drop down to 3.5%. Mr. Moate stated given the market, this is still good and would fully support staying with JVB for the next 12 months.

Mr. Moate discussed a potential transfer to the capital reserve fund. He noted that \$100,000 is typically budgeted annually for this transfer, but has not yet been completed this year. Approximately 70% of the current budget has been expended to date, with remaining obligations including summer salary payments. The district remains financially stable, and administration supports moving forward with the transfer to address upcoming projects.

Board

Mr. Budd discussed the 2026–2027 Board resolution to transfer Title I, II, and IV federal program funds to the IU9 for management. This includes contracting with the IU’s federal programs coordinator, Kelly Davis, to oversee compliance and administration. It was noted that the district is currently in corrective action due to deficiencies in program documentation, although the fiscal component remains in good standing. Approximately \$440,000 in Title funds are primarily allocated toward salaries and benefits, with limited funds for supplies and set-asides for specific populations. The transition is intended to improve compliance and address documentation requirements. The district anticipates further guidance from the state and will work toward full compliance within the expected timeline.

The board was notified that Ms. Jennifer Guncheon has met all the qualifications to comply with Section 1108 of the Pennsylvania School Code resulting in professional employee status granting her tenure.
