All the Pieces Work Together for Every Stallworth Student

Stallworth Charter School

People • Programs • Clear Systems • Consistent Practices • Brighter Futures

Same Goal. Every Student. Brighter Futures!

PBIS – Character & School Culture

We teach and celebrate kindness, respect, responsibility and safety. Monthly character traits help build a positive, supportive school where everyone belongs.

PBIS – Behavior

Clear expectations, consistent routines and positive r einforcement help students make good choices, stay engaged and focus on learning.

Language Development

We build strong speaking, listening, reading and writing skills so all students can access grade-level learning and share their ideas.

English Language Development (ELD)

Our multilingual learners receive targeted support to grow their English skills while building on their strengths and home languages.

Special Education Support

We provide individualized instruction, accommodations and supports so all students can access the curriculum and reach their fullest potential.

Strategic Support (Tier 2)

We use data to provide targeted small group and individualized support (in reading, writing and math) so every student gets what they need to grow.

PLCs (Professional Learning Communities)

Our teachers collaborate, study student work and share strategies to improve instruction. Together we ask, "How do we know all students are learning?"

SSTs (Student Support Teams)

We solve problems together by looking at data, identifying needs and creating action plans for academic, behavior and social-emotional support.

"Back to the Basics" (Our School Theme)

We focus on high-quality instruction, fidelity to the curriculum, essential standards, and consistent expectations in reading, writing and math for all students.

After School Program

Provides a safe and supportive environment where students receive academic help, enrichment activities and social-emotional learning. It builds skills, confidence and a sense of belonging beyond the school day.

STUDENT SUCCESS

Confident Learners
Responsible Citizens
Bright Futures

How It All Connects

These programs and practices work together to support the whole child. When students feel safe, supported, engaged and challenged, they are more likely to learn, grow and reach their full potential.

School-Wide Instructional Objectives

Student Engagement
Keep students active, curious and connected to learning.

How Do We Know All Students Are Learning?
We use multiple forms of evidence (assessments, observations and student work) to monitor progress and adjust instruction.

Curriculum Fidelity
We teach high-quality curriculum as intended to ensure all students have access to the same rigorous learning.

The Results for Our Students

Higher Academic Growth
Students develop stronger reading, writing, math and content skills.

Stronger Social-Emotional Skills
Students feel safe, supported, valued and connected.

Greater Engagement
Students attend school, participate and are motivated to learn.

Responsible Decision Makers
Students make positive choices and contribute to a respectful school community.

Continuous Improvement
We reflect, learn and grow together as a school.

Brighter Futures
Students are prepared for high school, college, careers and a successful life!
