Program Learning Outcomes:

1. Demonstrate foundational scientific knowledge, vocabulary, and skills appropriate for students seeking careers in community and public health.
2. Identify community public health issues and propose a culturally appropriate solution that incorporates cultural core values.
3. Compare the organization, structure, and function of healthcare, public health, and regulatory systems at local, tribal, and national levels.
4. Discuss how structural bias, social inequities, and racism impact health and create challenges in achieving equity.
5. Communicate culturally informed public health content effectively, both in writing and in oral presentations.
