

Superintendent's Corner

Mr. Mike Glover

Dear Stakeholders,
Our first quarter offered up many traditions and celebrations. Students walked on our campus meeting new and veteran teachers who were eager to share their extensive industry knowledge. First year students experienced career pathways and HOSA/SkillsUSA training. Second year students continued their path to earning an industry certification. Students were registered for dual enrollment credit through Central Arizona College. Teachers loaded students on buses for industry tours and community residents came on campus for clinic services and visited classrooms to share workplace experiences to students.

Excellent Level Teachers

CAVIT celebrated the efforts of five teachers who met the district's Quality Program accountability system. Each teacher shown documented work towards meeting excellence in curriculum and instruction, HOSA/SkillsUSA competitive events, program support, state end-of-program testing, and industry certification results. CAVIT created the Quality Program system to measure standards of quality indicators found in highly performing instructional programs.

New Career Training Programming Offered

CAVIT was excited to offer six new career training programs to students for this school year. Students were offered programming in Nail Technology, Barbering, Powersports Technology, Cybersecurity, Esports, and Aviation Technology. These programs whelp students explore career options, connect with industry professionals and gain valuable industry certifications that employers seek in candidates. Additional teachers were hired to develop curriculum and classroom experiences to ensure students received quality instruction.

Increased Enrollment

CAVIT saw a surge in enrollment this year, adding more than 300 students and growing our numbers to 1,150. Our school received students from 17 high schools, online students, home school students, and ESA participants. The student enrollment growth can be attributed to CAVIT's programs that meet students' career goals.

Construction Projects

The Building 600 project is on track for completion for December, 2025. This project will provide classroom and lab space for Construction and Powersports Technology programs. Once second semester starts, ground will be broken on the Building 700 project that will provide enlarged space for our growing Medical Science program led by three teachers.

Upcoming Second Quarter Dates

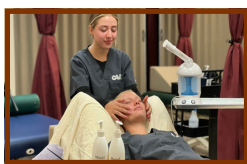

- October 21 - 1st Quarter Honor Roll Celebrations in Classrooms
- October 25 - Hairstyling, Nails, Barber, and Massage Saturday
- November 8 - Hairstyling, Nails, Barber, and Massage Saturday
 - November 11 - Veteran's Day No School
- November 22 - Hairstyling, Nails, Barber, and Massage Saturday
 - November 24-28 - Thanksgiving Break - No School
- December 1 - Enrollment Application Opens at 5pm via website
- December 6 - Hairstyling, Nails, Barber, and Massage Saturday
 - December 22 - January 2 - Winter Break - No School
 - January 5 - Teacher Inservice - No School
 - January 6 - Classes Resume
- January 6 - Semester Honor Roll Celebrations in Classrooms

New CTE Programming for 2026-2027

CAVIT is excited to announce two one-year programs for next school year that includes Aesthetics and Medical Laboratory. These programs have been offered based on student interest and employment demand.

Program Highlights

- Aesthetics - Skincare, makeup services, eyelash extensions
- Medical Laboratory - Drawing blood, collecting and preparing blood samples

Students Hold 9/11 Remembrance Ceremony

Both fire and law students put on a moving 9/11 remembrance ceremony for students and the community. Students gave speeches and displayed their pride for our school, community, and country. Numerous fire and law agencies attended along with county dignitaries. Students walked in unison to bagpipe music. A highlight of the ceremony was the ringing of the bell that signified the loss of life that occurred on that fateful day. Thanks to all who attended.

Students Assume Leadership

HOSA and SkillsUSA officers were trained to assume their officer positions. During the first meeting, officers were inducted into their roles and lead their first meeting. Good luck to our leaders!

Save the Date

CAVIT's completion ceremony event will be held on May 9, 2026 at Coolidge School's Performing Arts Center.

Nail Clinic Opens

Our Nail Technology students celebrated their clinic opening in August providing manicure services to community residents. Students will offer pedicure services during second quarter. Students displayed their talent by offering nail services at the Phoenix Women's Expo event. Friday and Saturday clinic appointments are available.

Students Research Careers

All first year students worked in teams of 2-3 to research a career and create a visual display to highlight that information. Students relied on their display board to present their career research to classmates. Teachers set up boards for all students to visit each classroom in order to vote for crowd favorite awards. Students have parlayed this project into HOSA competitions that have earned state and national wins. The research shared to classmates helped to increase career pathways opportunities.

1st Quarter Honor Roll Recipients

Students earning an "A" grade in both Skills and Fundamentals gradebooks received a first quarter honor roll certificate handed out in classrooms. A total of 480 students earned this recognition. Teachers were eager to celebrate students' efforts achieved during first quarter. Earning honor roll boosts students' self esteem and opens doors to scholarship avenues.
